-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Response to Amendment***

This office action is in response to Request for Continued Examination filed August 22, 2006. Applicant cancelled claims 1-59 and amended claims 60 and 61. The amendment have been considered and entered.

### ***Requirements for Information***

37 CFR 1.105 states: (a) (1) In the course of examining or treating a matter in a pending or abandoned application filed under 35 U.S.C. 111 or 371 (including a reissue application), in a patent, or in a reexamination proceeding, the examiner or other Office employee may require the submission, from individuals identified under 1.56(c), or any assignee, of such information as may be reasonably necessary to properly examine or treat the matter, for example:

Applicant under the 37 CFR 1.105 submitted the prior art "Mandate – final report". The document includes, in page 17, reference to a TEDIS report "Security in open environments" for detail description for the "DOC- carrier" to which the reader is referred to see Appendix 2. However Appendix 2 does not include the referred document. Examiner is requesting for the applicant to submit the TEDIS report titled "Security in open environments" in order to perform thorough examination.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Art Unit: 3622

Claims 60 and 61 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 60 provides for the use of electronically negotiating an END, but, since the claim does not set forth any steps involved in the method/process, it is unclear what method/process applicant is intending to encompass. A claim is indefinite where it merely recites a use without any active, positive steps delimiting how this use is actually practiced.

Claim 60 is rejected under 35 U.S.C. 101 because the claimed recitation of a use, without setting forth any steps involved in the process, results in an improper definition of a process, i.e., results in a claim which is not a proper process claim under 35 U.S.C. 101. See for example *Ex parte Dunki*, 153 USPQ 678 (Bd.App. 1967) and *Clinical Products, Ltd. v. Brenner*, 255 F. Supp. 131, 149 USPQ 475 (D.D.C. 1966).

#### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 61 recites the limitation "the digital signature of the document carrier hardware of said buyer". There is insufficient antecedent basis for this limitation in the claim.

#### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

Art Unit: 3622

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 60 and 61 are rejected under 35 U.S.C. 102(b) as being anticipated by Okamoto et al. (US 5,224,162).

Regarding claims 60 and 61, Okamoto teaches and electronic negotiating document (electronic check or cash or bill) where in a buyer splits the check electronically into two or more parts and then negotiates those parts separately without the involvement of a trusted third party (TTP) wherein each part is subjected to a digital signature which affects the splitting (see abstract, col. 1 line 25 to col. 2 lines 17, col. 2 lines 42-67, col. 3 line 33 to col. 4 line 39, col. 5 line 35 to col. 6 line 20).

### *Conclusion*

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Daggar (US 5748, 737 teaches document carrier hardware; an electronic wallet.
